TB Tests are at the physician's discretion. Acceptable tests include Mantoux or other federally approved test.									
If positive, or if x-ray ordered, attach physician's statement documenting treatment and follow-up.									
Lead Screening Date:/ /									
Attach lead level statement									
Lead Screening (Include All Dates and Results)									
1 year/ /	Result:		mcg/dL	☐ Venous	☐ Capilla	ary			
	Result:			☐ Venous	☐ Capilla	ary			
Most recent date of lead screening (if different from above):									
/ / Result:			mcg/dL	☐ Venous	☐ Capilla	nry			
Per NYS law, a blood lead test is required at 1 and 2 years of age and whenever risk of lead poisoning is likely. If the child has not been tested for lead, the day care provider may not exclude the child from child day care, but must give the parent information on lead poisoning and prevention, and refer the parent to their health care provider or the county health department for a lead blood screening test.

Religious Exemptions

Public Health law Section 2164 allows a child to be religiously exempted from immunization. A written and signed statement from a parent, parents or guardian of the child stating that they object of the immunization of their child due to their sincere and genuine religious beliefs should be submitted to the day care owner, operator or administrator who shall determine whether the statement of religious belief is acceptable.
